TEXT:
...Newsbytes wire on June 27. Softbank Net Solutions will announce today,
Monday, June 30, the **Universal   Music   Group** and Veger Technologies
Corp. as the first two beta customers for The Rights Exchange, a...

...a stake in the company. The new product will be based on core technology
from **InterTrust** Technologies Corp., according to the VP. Sweetser told
Newsbytes that Net Solutions' first two beta customers will use the product
in very different ways. The **Universal   Music   Group** will be marketing
and distributing its digital music content to digital jukeboxes, as well as
...

Where Content **Is All**

TEXT:
Lars Jackobson reviews the Danish market where TeleDanmark's agressive
content control, envied by neighbouring countries, is paramount

With various solid alliances in place and channel...

...the view that its own telco - Telia - should consider following the same
aggressive route towards **content** control. Telia's planned **movie**
-channel, Guldkanalen, and the recent acquisition of ice hockey **rights**
serves to illustrate a now well-entrenched pay-TV adage: sports coverage
puts bums on seats, while **movies** keep them there. That said, Telia
Infomedia's boss, Thorvald Bohlin remains adamant that his...
...TeleDanmark, in a joint venture with Norwegian media-group Schibsted,
recently acquired Denmark's leading **movie** distributor and independent
producer Metronome at a price rumoured to be between Pd19-21 million. The
deal included theatres, **movie - rights** , **video** -distribution as well as
film and television production. TeleDanmark launched a PPV service on
November 1 and has, via the deal, acquired a considerable library of
rights to Danish (at least 130 titles) as well as other classic **movies** .
The telco is expected to launch several pay-TV channels in 1997, including
a sports...

...be launched in the spring of 1997, both advertising financed.

The architect behind TeleDanmark's **content** entry is it's Director of
Cable Services, Bo Christensen, whose pure missionary zeal leaves...

...alliances play a significant role. It's expected that TeleDanmark could
announce some sort of **agreement** with Canal Plus, the pay-TV operator that
recently acquired Nethold (and therefore also FilmNet...

...every non-terrestrial broadcaster seeking an audience as well as a
sizeable proportion of new **content** creation of their own - and
overwhelmingly this will be transactional services.
Turning to the business...

...single figures - moreover, this is for product offerings of general
family interest, not a niche- **offering** as is the case with the sports-
channel. In addition, sports television is a crowded market with both
Kinnevik and Nethold (now Canal Plus) **offering** similar - though featuring
almost exclusively international sports events - services. TeleDanmark is
reportedly investing between Pd20...

...s totality of integrated multimedia services.

In this context an unknown factor could be the **Internet** . Firstly,
launching cable **Internet** services will help reduce churn and pave the
way for smooth introduction of other multimedia services - TeleDanmark's
Opasia **Internet** **offering** , **offered** at rock-bottom prices to the
consumer, is already solidly branded.

In fact, the prospective...

...now and in a future characterised by increased competition.

Returning to the implications of the **Internet** , it could be that such
services could yield a nasty surprise. It's no secret that another major
independent producer and Metronome's fiercest competitor, Nordisk Film, is
considering **offering** television signals via telephone lines - a
technology which has been tried and tested, so in...

...in operation before 1998.

However, Nordisk Film's strategic impasse - a much venerated and very
dynamic **content** provider not as yet allied to a broadcaster - has gone
from bad to worse since...

...Metro-nome, owns a further ten production companies in Norway and
Sweden, mostly oriented towards **video** and TV production, and is ambitious
to forge a Nordic power base. In the final...

...Film would on a continuing basis be able to deliver a wide array of
Danish **content** into such a partnership. However, the likelihood of such a
scenario is difficult to predict...

...in turn is owned by SBS and the Norwegian newspaper group A-Pressen.
Following a **change** in Norwegian media legislation, TVNorge operates as a
networking operation between 16 local broadcasters and to the detriment of
TV2 Norway.

With impending **changes** in Danish media legislation too, allowing
networking, SBS appears in a position to challenge two...

...and TV2 Denmark. In this way, the Danish and indeed Nordic broadcasting
scene could be **changed** beyond recognition within just a couple of years.
Integrated **content** providers would provide **content** to TeleDanmark ,
which de facto would be the main distribution hub within cable and
satellite...

...in operation, ostensibly due to failing advertising revenue.

DK4 - Denmark's first cable-born channel **offering** education, cultural
news, public service messages and - increasingly - sports. Similar profile
as the US cable...

Imark Technologies Introduces NET-MAX+ Information Commerce Service
PR NEWSWIRE
May 14, 1998   12:10

     Company Offers Three-Month Trial to NPA Members of New Electronic
Publishing
     and Marketing Service
     HERNDON, Va., May 14 /PRNewswire/ -- Imark Technologies, Inc. (Nasdaq:
MAXX), "The Information Commerce Company(TM)," today announced the
beginning of trials of its NET-MAX+ (Plus) service, which is expected to be
commercially available in August 1998. The system, built on Imark's award-
winning NET-MAX(TM) information commerce technology, offers an unparalleled
combination of content management and commerce services for the secure
distribution and sale of **digital   content** via the World Wide Web.

NET-MAX+ will be demonstrated at the Newsletter Publishers Association's (NPA) International Newsletter Conference, Booth #8, on May 31-June 2 at the Renaissance Mayflower Hotel in Washington, DC.

Members of the NPA are currently being invited to trial the feature-rich NET-MAX+ service for three months. NET-MAX+ combines sophisticated metering and billing, account management, search, profiling and customization, content management, **rights management** , and content delivery options, to enable publishers to market and sell **digital content** in a wide variety of formats. The company expects to increase its revenues by receiving a sizable percentage of publishers' billed sales.

"Having seen what NET-MAX+ can do, we're excited to be among the first newsletter industry publishers to put the system to use," said Claire Schoen, Director of Electronic Publishing at Simba Information, a leading provider of news, analysis and market research reports on the media and information industry. "NET-MAX+ appears to be the solution for a lot of our newsletter electronic publishing needs, especially by addressing our e-commerce

"NET-MAX+ is a powerful and cost-effective publishing system that protects time-sensitive content while turning non-subscribers into customers," said Michael Gallagher, Senior Vice President of Sales at Imark Technologies. "It's a user-friendly system with intelligent features, particularly the profiling component which continually develops and maintains information on user preferences. A publisher's most relevant archived information can be delivered right to the desktop, creating the opportunity for increased customer usage and sales."

Features of the NET-MAX+ Service include:

Sell content on subscription, pay-per-view, and debit/draw-down account options

Sub-Account Manager for corporate draw-down accounts, so that a corporate account can be sub-divided among departments and individual users

Content submission via Java API, Java application, or email

Automatic management and incremental indexing of documents (PDF, Word, ASCII, and HTML) newsfeeds, and fielded data

XML-based metatagging of **digital content** in any form (images, music, software)

Intelligent Search of all content formats and delivery of content in its original format

Adaptive User Profiling module learns what kind of content users want and **updates** itself accordingly

Dynamic WebSite system that constantly alerts the user to the latest content matching his profile as well as the latest content entered into the system

Automatic routing of content as it is entered into the system to all users that have a matching profile

Content delivery via web site, email, and server-push

Authentication/permissioning/access authorization controls

Rights management system enabling a publisher to set and enforce usage and redistribution **rights** for content. Trusted viewer to accommodate all content types indexed and hosted by the Imark ICS

Multiple secure payment processing options: real-time credit card, Cybercash, and purchase order

NPA members interested in receiving more information about a free three- month trial of NET-MAX+ service should contact Pete Neimeier at 703-925-3400, ext. 3428, or email netmaxplus@imarktech.com.

About Imark Technologies, Inc.

Imark Technologies, Inc. offers information commerce services to content providers who want to quickly and easily sell their content on the **Internet** or CD-ROM. Imark's information commerce services include NET-MAX for **Internet** web-based content, NET-MAX+ for Web-based content distribution based on customer profiles with secure **rights management** ,

and CD-MAX for CD-ROM based content. NET-MAX was recently awarded the 1997 Information Industry Association (IIA) HotShot award for "best new enabling technology." Imark's services provide capabilities unique to the access, distribution and payment of **digital content** while giving content providers the ability to price their content in multiple ways. Imark's rapid implementation model presents content providers with a way to quickly begin generating revenue while minimizing initial investment and risk. Imark is traded on the Nasdaq Stock Market, under the symbol MAXX. Imark's Web address is http://www.imarktech.com.

This press release, particularly the statements by Mr. Wiedemer, includes forward-looking statements related to Imark that involve risks and uncertainties, including, but not limited to, quarterly fluctuations in results, the management of growth, market acceptance of certain products and other risks. These forward-looking statements are made in reliance on the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. For further information about these factors that could affect Imark's future results, please see the Company's filings with the Security and Exchange Commission. Prospective investors are cautioned that forward-looking statements are not guarantees of future performance. Actual results may differ materially from management expectations. Copies of these filings are available upon request from Imark's investor relations department.

Thomson Technologies' TEAMS Helps to Manage Digital   Content

ABSTRACT:
...digital information assets. TEAMS is 100% Java-based and allows
organizations to capture, manage, and **dynamically** reexpress and
redistribute information. The software is able to manage both hard copy and
 online text, images, or video and can work with traditional and
interactive media. Several application expamples...

TEXT:
Thomson Technologies has announced TEAMS, a modular, 100 percent Java-based
software solution for managing **digital   content** . According to the
company, TEAMS speeds organizations' ability to capture, manage, and
dynamically re-express and distribute their valuable information
assets--including both hard-copy and **online** text, images, and
video--across traditional and interactive media. Thomson Technologies is
the technology software...
...corporations--can be considered content 'publishers.' TEAMS allows these
content creators to keep pace in ' **Internet** time' by dramatically
simplifying the capture, storage, and management of all media types and by
...

...publishers face hurdles such as widely distributed and disconnected
content databases, minimal content reuse, ineffective **rights   management**
, and the inability to keep pace with new, more nimble competitors. TEAMS
addresses these issues...

...Olympic sports coverage--could use TEAMS to capture all instances of
its Olympic reports, track **rights** and permissions for stories or photos

gained from outside sources, and repurpose the content and...

...documents or images of interest. Customized publications can be developed and electronically distributed via the **Internet** or extranet in hours-instead of weeks. Meanwhile, employees in a far-flung satellite office...
